

I do not want to see the FCC do anything to diminish Indiana's telephone privacy law.

This law is a blessing for all of us that were under siege from telemarketers. I was receiving 6-8 unwanted calls daily, from telephone solicitors, before the law took affect. That number has now dwindled to approximately 6 a month, which is a welcome relief!

PLEASE, leave this law as it is! We finally have a law that everyone is pleased with.
